_+44 7305 822676_ | _Chester, UK_

Full Stack Developer with **2+ years of experience** building scalable web applications using **React**, **TypeScript**, **Node.js** and **SQL**. Skilled in creating performance-optimised solutions, improving workflows and delivering end-to-end features with a user-first mindset.

Recent Project

Chester Mosque & Islamic Center - [code] [live]
Q2 2025

A full-stack platform for Chester Mosque built with **Next.js**, **TypeScript**, **Stripe**, and **Sanity CMS**, supporting donations, event listings, and community engagement.

- **Streamlined donations** via **Stripe** integration, leading to an 60% increase in contributions within the first month post-launch.
- **Enabled real-time content updates** for mosque staff through a customized **Sanity CMS** setup for events, announcements, and community posts.
- **Optimized performance and accessibility,** achieving perfect **Lighthouse** scores across mobile and desktop, with full SEO best practice implementation.
- **Automated deployment pipeline** using **GitHub Actions** for continuous integration, testing, and production releases.

Experience

Freelance Full Stack Developer
Jan 2023 - Present
- **Developed scalable, user-centric web applications.**
- **Defined project goals** and ensured **98% on-time delivery** across all projects.
